STATE	WAR	NAVY	JUSTICE

1. The Zentral Verwaltung has received urgent instructions from the SMA at Karlshorst to work out immediately an industrial plan for 1949 for the whole of Germany on the basis of twelve million tons of steel. Allocation figures will be based on those of 1938, less the ceded Eastern territories.
2. The reason for the new plan is that the former agreement to reduce steel production was considered a mistake, as reparations claims will not be satisfied on the reduced basis.
3. The new plan was required for the Moscow Conference, and the Zentral Verwaltung was working night and day to complete it.
